fullDescriptionUnstructured: La superficie superior es de color amarillo claro, a veces un poco más oscura, el tercio apical de las alas anteriores es de un hermoso color amarillo-naranja, en las celdas discales se encuentra un gran espacio cuadrado con un punto rojo-marrón, a veces también pequeño. El margen distal negro-marrón varía mucho en anchura, frecuentemente no se reduce a lugares marginales, que sólo son conectados por una línea marginal, de vez en cuando es totalmente ausente (Seitz, 1924).
