managementAndConservationUnstructured: Flórez & Cepeda (2007) propusieron que se deben efectuar inspecciones periódicas a las tiendas de mascotas, de suministros artesanales y de recuerdos turísticos; en aquellos sitios en que se detecten especímenes vivos o en inclusiones resinosas deben decomisarse. Asimismo simultánea a esta acción restrictiva debe efectuarse una campaña de concientización acerca de los riesgos al que someten a la especie (recurso del cual se están lucrando), y sugiriendo como alternativa implementar proyectos de zootecnia (Flórez & Cepeda, 2007).
